Elisa Ossino

Elisa Ossino is an architect and interior designer. Born in Sicily, she trained in Milan, where she studied at Politecnico. In the year 2006, she established Elisa Ossino Studio focusing on residential and commercial interiors, product design, art direction, set design and styling.

Her works combines geometrical abstraction, monochromes, metaphysical and surrealist references, giving birth to a coherent and allusive relationship between space, light, and objects. A sort of scenic suspension inspires Elisa's style, bringing in every project a peculiar form of lightness. Essential lines and geometries are the distinctive features of her designs, giving to the space they are located in a deep scenographic feeling.

Low Table, 2020

The close relationship between Elisa Ossino and geometry is translated to the Viccarbe collection thanks to a new range of side tables.

Trino is born with a sculptural soul and stage vocation, with the inherent elegance of a design capable of expressing and complementing all types of interiors. The Ossino tables are also easy to move thanks to its three types of handles available: a metal structure and a small sphere available in solid oak or marble.

As a novelty, the green marble sphere is now made by Salvatori, the renowned natural stone specialist. As ambassadors of the Mediterranean collaboration concept, being able to work closely with such talented brands is a privilege that reminds us why we do what we do.

Once again, function and form meet to foster the synthesis between object and space.
